## CORE BANKING TECHNICAL CONSULTING
Technical foundations for modern core banking platforms

### EXECUTIVE OVERVIEW

This program focuses on the technical architecture and integration landscape that underpins modern core banking systems. Participants develop an understanding of how core banking platforms operate from a technical perspective, including environments, data flows, and system integrations.

The program bridges the gap between functional requirements and technical delivery, enabling participants to collaborate effectively with developers, architects, and infrastructure teams.

### PROGRAM DETAILS

Delivery: In-Person & Virtual

Part-time (During the day / Evenings / Weekends)

Full time – On Demand

Cohort Size: Maximum 15 participants
